Indore (452009),MP

## SKILLS

**Programming Languages:**

Python, GraphQL, Core Java, JavaScript, HTML, CSS

**Frameworks & Libraries:**

Django, Flask, FastAPI, React, Bootstrap

**Databases & ORMs:**

PostgreSQL, MySQL, MongoDB
Django ORM, SQLAlchemy

**Tools & Platforms:**

Git, Docker, Linux

## EDUCATION

**Bachelor of Engineering (CSE)**
RGVP, University
2014-2018

**Higher Secondary Certificate**
Goverment Nutan H.S. School
2013-2014

**Secondary School Certificate**
Goverment Nutan H.S. School
2011-2012

## STRENGTH

Teamwork
Leadership
Hard-Working

## CERTIFICATIONS & TRAINING

- Python Developer Training (Flask & Django)
  – ThoughtWin IT Solution Pvt. Ltd.
- Android App Development Training – BIYBYTE Software Technology Pvt. Ltd.
- Android Internship
  – Pahal Techno Vision

## PROFILE

Python Developer with 2.5+ years of experience in building secure and scalable web applications using Django, Flask, and FastAPI. Skilled in RESTful and GraphQL APIs, database management (MySQL, PostgreSQL), and front-end tools like HTML, CSS, and Bootstrap. Strong team player with a focus on clean, efficient, and maintainable code.

## PROJECTS

- **Butterfly**
  - Tech Stack: Python, Flask, Microservices, PostgreSQL, Pytest

  Improved a medical imaging platform enabling X-ray uploads via mobile and specialist review workflows. Implemented user authentication, role management, and a microservice-based architecture for scalability.
- **Superdesk**
  - Tech Stack: Python, Django, Flask, Microservices, MongoDB, Pytest

  Worked on a content management platform for news agencies, handling backend development, bug fixes, and feature integration using Django and Flask.
  Focused on performance optimization and writing clean, testable code.
- **Briq**
  - Tech Stack: Python, Flask, HTML, CSS, Bootstrap

  Built a construction tender management system using Flask, including modules for deadlines, work schedules, and equipment tracking.
  Created the frontend with HTML, CSS, and Bootstrap for intuitive user interaction.
- **The Tech Switch**
  - Tech Stack: Python, Flask, MySQL, Postman, Swagger

  Built RESTful APIs with Flask and JWT authentication for both admin and user roles.
  Tested and documented APIs using Postman and Swagger; handled database interactions with MySQL.
- **Social Media App**
  - Tech Stack: Python, Django, HTML, CSS, Bootstrap

  Engineered a basic social networking application using Django, showcasing core features of a social media platform.
  Planned and styled the frontend with HTML, CSS, and Bootstrap for a clean interface.
- **Library Management System**
  - Tech Stack: Python, Flask, HTML, CSS, Bootstrap

  Implemented a library management system in Flask with features for managing books, users, and transactions.
  Crafted a user-friendly UI using HTML, CSS, and Bootstrap.

## EXPERIENCE

- **BestPeers Infosystem Private Limited | CMMI Level 3**

  July 2024 - Present
  - Technology : Python Flask, FastApi, Django, GraphQl
  - Developed RESTful APIs and backend services, improving application performance and scalability.
- **MINDIII Systems Pvt. Ltd. Indore**

  July-2023 to Jun-2024
  - Tech : Python Flask Web Framework
  - Developed backend modules and integrated RESTful APIs, enhancing application response times and reliability.
- **ThoughtWin IT Solution pvt.ltd.**

  Jan-2023 to Jun-2023
  - Tech: Python, Django, Flask
  - Built basic web applications and RESTful APIs using Django and Flask, strengthening practical backend development skills.
